

A large-scale industrial steel mill at night. The scene is filled with complex machinery, including cranes and conveyor systems, illuminated by a mix of blue and orange lights. In the foreground on the right, a large ladle is being tilted, pouring molten metal which creates a massive spray of bright orange sparks. In the background, several tall smokestacks are visible, with one on the left emitting a bright flame. The sky is dark, and the overall atmosphere is one of intense industrial activity.

SCE-SEA CONSULTANCY

Engineering Today, Shaping Tomorrow

Industrial Consulting & Supply Chain Solutions in Southeast Asia

Vietnam | Cambodia | Southeast Asia
SCE-SEA Consultancy LLC 2026

WHO WE ARE

SCE-SEA Consultancy combines **engineering expertise, supply chain management, and on-site operational support** to assist international companies across Southeast Asia.

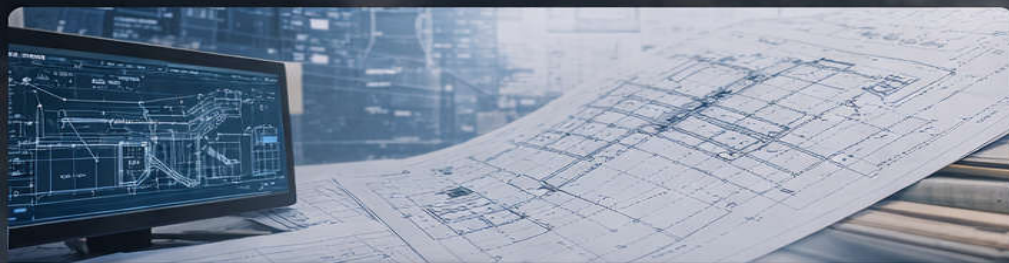

With a strong regional presence and **European industrial background**, we act as a **technical and commercial interface** between clients and qualified local suppliers.

Our scope covers **engineering, sourcing, project consulting, and field support** — ensuring control, transparency, and **reliable execution** throughout the entire project lifecycle.

SCE-SEA Consultancy LLC

OUR SERVICES

ENGINEERING

- 2D / 3D drawings and detailing
- Bill of Materials (BoM) preparation
- Technical specifications review
- Optimization for fabrication

SUPPLY CHAIN

- Supplier scouting and qualification
- Cost benchmarking and negotiation
- Procurement coordination
- Production monitoring

QUALITY & INSPECTION

- Workshop inspections (visual, dimensional)
- Welding control and WPS verification
- NDT coordination (UT, MT, PT, RT)
- Final inspection and reporting

PROJECT, CONSULTING & REPRESENTATION

- Technical and commercial consulting
- Expediting and site follow-up
- Client–supplier interface management
- Sales representation for international companies
- Market development in Southeast Asia

INDUSTRIAL APPLICATIONS

SCE-SEA Consultancy supports industrial projects across multiple sectors, providing engineering coordination, supply chain management, and execution control.

INDUSTRIAL & STEEL PLANTS

- ✓ Meltshop components (EAF, LF, VD/VOD)
- ✓ Heavy structures and fabrication
- ✓ Cooled panels and ducting systems

ALUMINIUM INDUSTRY

- ✓ Billet handling and charging systems
- ✓ Mechanical structures and supports
- ✓ Fabrication for plant equipment

ENERGY & INFRASTRUCTURE

- ✓ Structural fabrication
- ✓ Industrial equipment and supports
- ✓ Project-based mechanical supply

GENERAL HEAVY FABRICATION

- ✓ Welded structures
- ✓ Custom mechanical components
- ✓ Export-oriented fabrication

OIL & GAS PROJECTS

- ✓ Fabrication and supply chain support
- ✓ Mechanical components and skid fabrication
- ✓ Execution support for Oil & Gas projects

Vietnam | Cambodia | Southeast Asia

SCE-SEA Consultancy LLC

OIL & GAS — PROJECT EXECUTION SUPPORT

SCE-SEA Consultancy supports Oil & Gas projects across Southeast Asia, focusing on fabrication, supply chain coordination, and execution control.

PROJECT EXECUTION APPROACH

- ✓ Compliance with international standards
- ✓ Reliable fabrication and delivery
- ✓ Full visibility across the supply chain
- ✓ Controlled execution on site

CORE CAPABILITIES

- ✓ Structural and mechanical fabrication
- ✓ Piping components and supports
- ✓ Skid and modular fabrication support
- ✓ QA/QC, inspections and expediting
- ✓ Supplier qualification for Oil & Gas standards

INDUSTRY STANDARDS

Understanding of Oil & Gas codes and requirements

QUALIFIED SUPPLY BASE

Network of audited fabrication shops suppliers

QA/QC & HSE CONTROL

Structured inspection and safety procedures

REGIONAL EXECUTION

Local presence and Southeast Asia coordination

DELIVERY PERFORMANCE

Reliable execution and Schedule adherence

Vietnam | Cambodia | Southeast Asia

HOW WE WORK

1

2

3

4

5

1. UNDERSTANDING

- Analysis of client requirements
- Technical and commercial alignment
- Definition of project scope

SOURCING

- Identification of qualified suppliers
- Technical and commercial evaluation
- Benchmarking and selection

3. ENGINEERING & VALIDATION

- Technical review and optimization
- Documentation and BoM validation
- Feasibility and production alignment

4. EXECUTION CONTROL

- Production monitoring and expediting
- Quality inspections and reporting
- Continuous coordination with client

5. DELIVERY & SUPPORT

- Final inspection and release
- Packing and shipment coordination
- Post-delivery technical support
